

AM-LINER[®] II

PATENTED

trenchless manhole-to-manhole
**sewer pipeline
rehabilitation system**

AM-LINER® II

PATENTED

is a strong, structural PVC pipe lining system which allows for repair of broken and leaking underground sewer lines without costly and time consuming excavation.

AM-LINER® II

PATENTED

- ★ is manufactured from a polyvinyl chloride compound specially formulated for pipeline rehabilitation.
- ★ is resistant to all normal sewer effluents.
- ★ is manufactured to SDR 32.5 and SDR 26 to line sewer pipe from 6 inch to 12 inch diameter.
- ★ conforms to ASTM standards F-1867 and F-1871.
